That did the trick. The redirect is working. Sorry for the delay.

---

Well, as long as it only takes a VERY short period of time (unpublishing the R8 page, that is). It's a bad, increasingly stale page, but it's probably getting a ton of hits right now.

Thanks, Pat and everyone!

OK guys, this is in place and showing on wcms, but is taking its time propagating to www2. Can I unpublish the region 8 page? I think that may get it to stick. If it doesn't, I'll immediately re-publish so it's not a dead link. Is that OK?

Subject: Can you do an immediate redirect of the Gold King Mine page?

---

Hi everyone!

<http://www2.epa.gov/goldkingmine> is finally live now.

So, we'd love to have <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response> redirect to <http://www2.epa.gov/goldkingmine> immediately.

Thanks!!
